DETAILED ACTION

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

1. Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c). Non-initialed and non-dated changes were made to the "Citizenship" box for the fifth inventor.

2. The specification to which the oath or declaration is directed has not been adequately identified. See MPEP § 601.01(a). The declaration states the previous title, "Freestanding Reactive Multilayer Foils," which had been changed to "Composite Reactive Multilayer Foil."

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 32 and 33 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 34 and 35, respectively, of copending Application No. 10/247,998.

This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
